Designated United States Depository. Corner Boom, Odd Fellows' Hall. THEO. P. HAUGHEY, Pres'L. E. E. REXFORD, Cash

CONDITION OF THE MARKETS

Light Trading in Wheat and a Slight Loss in Price All Around at the Close.

Corn Firmer and a Fraction Higher than Saturday-Oats Stronger, and a Gain of Over a Cent Scored-Provisions Steady.

MONEY, STOCKS AND BONDS.

After a Weak Opening the Market Gained Confidence and Higher Prices Resulted. NEW YORK, June 9.-Money on call was easy, ranging from 4 to 5 per cent., the last loan being made at 4, closing offered at 4 per cent.

Prime mercantile paper 5@612 per cent. Sterling exchange quiet but firm at \$4.8434 for sixty-day bills and \$4.8634 for

The total sales of stocks to-day were 273,-

764 shares, including the following: Atchison, 14,750; Canada Southern, 3,450; Louisville & Nashville, 5,575; Missouri Pacific, 9,165; Northern Pacific preferred, 4,600; Orewest Point. 27,885; Union Pacific, 7,085. The stock market was comparatively quiet to-day, and while inclined to weakness under the hammering of the room con-tingent, later developed a strong tone and all of the early losses were regained. The passage of the silver bill by the House of Representatives on Saturday furnished the topic of conversation for the street to-day and there was some ex-pectation that there would be a little boom on the strength of it. There was some baying at the opening, which, with the limited offerings, had the effect of opening the market up from 18 to 58 per cent. but the disposition among the majority of operators was to await the action of the Senate upon the matter, and the adance went but slight fractions further. The trading element interpreted this as an indication of weakness, and made some attacks upon the list here and there, but outside of the trusts the impression made was slight, although some selling for London account depressed Oregon Transconti-nental, Louisville & Nashville, Mexican Central, St. Paul, Union Pacific, Rock Island and one or two specialties large fractions. Toward noon the announcement was made that passenger rates had been restored all around, and the Villards were the first to feel the stimulus, Oregon, Transcontinental moving up near-ly 2 per cent, Richmond & West Point followed later with a similar gain and the trusts rose handsomely from their lowest points. The talk of the street has it that Transcontinental is worth in the books about 55, but the prospects of dividends after the reorganization is said to be the chief stimulating influence at present.
Richmond & West Point rose sharply and
the rise was accompanted by rumors that
the insiders would probably obtain control
of the Baltimore & Ohio. There was evidence of inside buying also. The general
revival of confidence, however, was shown
in all portions of the list and in the last hour the traders who had been sellers in the forenoon took hold of one after another and aided materially in advancing prices. The trusts were not so active, but while they showed some wide fluctuations, they were on a smaller scale than usual of late, and they fully responded to the late strength in the regular list. The close was quiet and firm at only slight changes from first prices. The final changes are quite irregular and usually insignificant, but Oregon Transcontinental is up 14 per cent., and Sugar and Missouri Pacific 1 per

Railroad bonds were quiet throughout and failed to develop any special feature whatever. The market displayed a firm tone, but there was no urgent demand at any time. The trading reached only \$1,251,-000. Among the advances Ohio, Indiana & Western seconds rose 2 to 60; St. Joe & Grand Island seconds, 412 to 5212.

Government bands were dult and steady.

State bonds were dull and without feature. Closing quotations were:

Wheat Slightly Lower, but Corn and Oats Higher, the Latter Gaining Over a Cent. CHICAGO, June 9.—Only a light business was transacted in wheat to-day, and the market ruled quiet most of the session. There was nothing especially new brought to light to stimulate or excite trading, and operators were generally disposed to await the government report, which will be made public to-morrow. The market opened about the same as Saturday's closing to 4sc higher, eased off 4@3sc, became stronger, and prices advanced 5,003,c, ruled weak and declined % @11sc, and closed 5sc lower for December than the closing figures of Saturday. Crop advices from the Northwest continue favorable, while from the winter-wheat districts nothing of importance sufficient to have any effect on the market was heard. There was a fair shipping business in and the feeling was firm, gains being the rule on all futures. The wet, cooler weather had a stimulating effect on values, and the fear that the government crop report will be rather unfavorable also had its effect on prices, offsetting the receipts and large increase in the visible supply. The market | done. Pork, \$12. Lard, 5.75c. Dry-salt opened firm at about Saturday's closing | meats-Boxed shoulders, 4.85c; longs, 5.25c; prices, and, under a good general demand, advanced 3sc, eased off some, ruled steady and closed 1s@14c better than Saturday. Oats were active, stronger and higher, especially for the new crop deliveries, which received the most attention. The strength was due to unfavorable crop reports, especially from Illinois, where the crop is said to be affected by lice. These reports prevented operators from selling freely and created a good demand. The competition among buyers caused a firm market, and prices advanced 11s@114c for August and September. July sympathized to a moderate extent, but only advanced sec. A little more life was manifested in pork, but trading was limited. Prices ruled 5@10c higher, and the market closed quiet at inside figures. Trading in ribs was moderate, and the feeling was steadier. Prices were advanced .0212e early in the day, but were not supported to the close. Less was doing in lard, and the feeling was rather steady. Prices were advanced .0212@.05c and closed steady at medium figures. The leading futures ranged as follows:

cates opened at 86%; highest, 91%; lowest, 86%; closed at 90%. Sales, 750,000 brls; charters, 60,158 brls; shipments, 73,514 brls; runs, 72,274 bris. PITTSBURG, June 9.—Petroleum active, stronger and higher. National transit certificates opened at 865c; closed at 901cc; highest, 911cc;

CLEVELAND, June 9. — Petroleum easy; standard white, 110°, 73se; gasoline, 74°, 9e; gasoline, 86°, 12e; naphtha, 63°, 7e. CHARLESTON, June 9.-Turpentine active at

NEW YORK, June 9.—Cotton quiet; middling uplands, 124c; middling Orleans, 127-16c. Sales, 113 bales; also last week (not before reported), 220 bales for spinning and 4,017 for export. Futures closed steady. Sales, 47,800 bales. June, 12.24c; July, 12.26c; August, 12.16c; September, 12.21c; October, 10.73c; November, 10.59c; December, 10.58c; January, 10.61c; Feb-

NEW ORLEANS, June 9.—Cotton easy. Middling, 11 13-16c; low middling, 11 9-16c; good ordinary, 11 5-16c. Net receipts, 543 bales; gross receipts, 545 bales. Exports to Great Britain, 2,200 bales; to the continent, 419 bales. Sales, 700 bales; stock, 31,909 bales. LIVERPOOL, June 9.—Cotton steady and un-changed. Middling, 6 9-16d. Sales, 7,000 bales,

of which 1,000 bales were for speculation and export, and included 6,100 bales American.

Dry Goods. NEW YORK, June 9.—There was a widening and more active demand for specialties, particularly cotton. There was a good business in fine bleached goods at advanced prices. Staple cottons were very firm, and agents are so far sold ahead that they are not pushing sales. Southern buyers are taking cotton dress goods with an un-usual degree of liberality, and some dark printed specialties are meeting with like favor.

NEW YORK, June 9.—Copper dull; lake, June, 15.85c. Lead firmer; domestic, 4.35c. Tin strong; Straits, 21.85c. ST. LOUIS, June 9.—Lead firm; early sales of refined at 4c; quotable at 4.12 204.15c at the

INDIANAPOLIS MARKETS.

Trade Opens Brisk with Firm Prices Prevailing as a Rule.

INDIANAPOLIS, June 9.

There was a good deal of activity in all departments to-day and prices on most articles carry a strong tone. Sugars advance another one-eighth of a cent and all staple groceries rule firm. The New York Bulletin of Saturday says of sugars: "Some of the trade commence to suggest the possibility of pushing the market too severely, on the plea that the feeling is becoming somewhat speculative. The only evidence of speculation, however, seems to be in the fact that investments are being made with greater freedom against future and comparatively distant wants: a thoroughly legitimate method, certainly, and probably the more so when it is considered that the class of buyers operating, both here and out of town, are quite as shrewd and close calculating as may be found on any market. Briefly, the free movement of refined goods has brought the opening throb of the natural season's movements, and caused refiners to prepare themselves for present and coming meltings, and the demand for raws, with its accompanying strength on values, is likely to continue until a sufficient acis likely to continue until a sufficient accumulation has been made to bring a sto 4 hs per pair, 12c \$\psi\$ h; cocks, \$\psi\$ cocks, \$\psi\$ feeling of content to consumers. The h; turkeys, choice fat hens, \$\psi\$ choice position one year ago was most of the distributors well stocked and refiners carrying an immense supply of the product, while now operators generally appear to have no accumulation beyond current wants, The probability that even if a reduction in duty is made it will not take effect for some time is also another incentive to operate." The wool market is more active and the new clip coming in more freely. One of the largest dealers here writes as regards the market as follows: "The epidemic wool fever has now spread over the entire West, and seems to be most malignant at points remote from trade centers. Prices are not quotable, being governed only by the feverish condition of the buyer. Eastern values, or sound judg-ment, seem to have little influence of prices. Whether Eastern markets will advance to correspond with prices in the West is the question which many anxious holders would like to see answered in the affirmative." The produce markets were active. Hens, 12 cent lower; chickens 2 cents higher, while eggs are weak at 10 cents. As usual on Monday but little was doing in fruits.

Note.—It being the day for the election of officers of the Board of Trade, there was no call and the Journal is without its usual

grain quotations. Indianapolis Jobbing Trade. CANNED GOODS. Peaches—Standard 3-pound, \$2.25@2.50; 8-pound seconds, \$1.65@1.75. To Yearly Subscribers Only.

Aware of the general demand for a hand some and reliable time-keeper at the lowest price consistent with perfection in movement and richness in case, THE WEEKLY JOURNAL has been seeking, for some time, a watch that it could unreservedly recommend to its subscribers as just the one they needed and would be pleased with. It is glad to be able to announce that it has recently found such a watch in the one described in three styles below, and to be able to guarantee it as the best and cheapest watch ever originated in this country. It has concluded a private arrangement by which it offers below these watches at nearly one-half the price at which they can be procured of any retail dealer. These watches, at these low prices, can be secured by yearly subscribers only to THE WEEKLY JOURNAL.

If you are not a subscriber to THE If you are not a subscriber to THE WEEKLY JOURNAL you must become one, in order to get the advantage of this great offer. Add ONE DOLLAR to the figures given below, and THE WEEKLY JOURNAL will be sent one year, as well as

Every Subscriber Should Own One. Read the Descriptions Carefully.

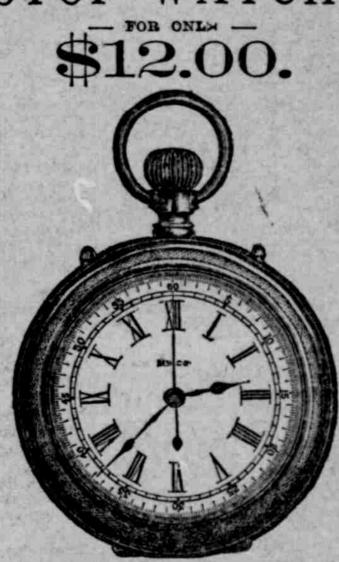

A LADY'S WATCH,

Gold-Filled Hunting-Case,

The above is a correct representation of the front case, and the back is even more beautiful, being a fine landscape engraving on the glittering gold. The cases of this watch are warranted for fifteen years, and the movement bears the stamp of the Elgin National Watch Company, which will con-vince any and all that the watch is good for a life-

A GOLD "FILLED" STOP WATCH,

DESCRIPTION OF GOLD WATCH It is the genuine gold-"filled" or "reinforced" case, and patented, and made only by half a dozen manufacturers, and is the same for use and wear as the solid gold case, and may be so considered and treated. Even the costliest watches on the market now have Even the costliest watches on the market now have them, on account of their greater strength.

With each watch there goes a guarantee by the Manhattan Watch Company to keep it in order for one year free of all charge.

The little post on the left hand stops and starts the watch; the little post on the right hand turns the hands, setting the watch. It need never be opened. It is a ratchet stem-winder, full jeweled balance movement, and as good a time-keeper as any man wants.

\$7.00.

The back of this watch is exquisitely engraved by

Description of SILVER WATCH, Only \$7.

The face of this watch is precisely the same as that of the gold watch, and the movement is precisely the same. The difference between the two watches is only in the case. The latter is of oxidized silver, acid cales. only in the case. The latter is of oxidized silver, acid eaten, very next and quaint.

The movement is the quick train, with straight line lever escapement, with a direct-acting hand-set that permits accurate setting, and will not allow the hands to move out of position while setting. In the sweep second movement the second hand is run direct from the movement train, insuring perfect motion, while the dial train and hands are run by a friction printed from a side center. This gives all the motion, while the dist train and hands are run by a friction pinion from a side center. This gives all the advantages in time-keeping qualities of the most delicately adjusted and expensive movement.

Each watch is put up in a neat box, padded, to carry it safely through the mails. In the box are directions for setting the hands and regulating the watch, with the name of the person at the factory who tested and packed it. If on receipt of the watch it does not regulate or keep time, or is found out of order in any way, it is to be returned to the Manhattan Watch Company, No. 234 Broadway, and it will either be put in perfect condition or a new one sent, FREE OF ALL OHARGE. This guarantee is good for one year, during which the company agrees good for one year, during which the company agrees to keep the watch in perfect running order free of all The silver case has a direct instead of a ratchet stem-wind, and snap-back instead of a screw-back. The guarantee is the same for both, for the move-

The guarantee is the same for both, for the movements are the same.

These WATCHES, in time-keeping, appearance
and durability, equal to the best.

The LADIES' ELGIN GOLD-FILLED HUNTING-CASE WATCH costs \$14.50.

The GOLD-FILLED STOP WATCH costs \$12.

The SILVER STOP WATCH costs \$7.

The GOLD-FILLED STOP WATCH given to
sender of 50 subscribers and \$50.

The SILVER STOP WATCH given to sender of
25 subscribers and \$25. As we get the Watches from New York city, it requires some time for orders to be filled, and parties ordering must be reasonably patient before writing letters of complaint that the goods have not come to hand. Expenses of delivery prepaid. Address
